- On the day you will 'select an event' under Calderdale.
Your map will appear and when you are ready (if you are using a downloaded map you may decide to put the phone in your pocket or armband) run through the start and the phone will bleep and the triangle change from red to green. As you pass within say 5 to 15 metres of the control site the software registers again as with the start. When you have finished the software shows your route and you can see where you are positioned in the results.
- Risk Assessment Issues – Busy Roads. Look behind you for cars and bikes if moving out onto the road. There are cobblestones which can be very slippery in wet conditions. Neither the Planner nor the club can be held responsible for any accidents. You take part at your own risk.
